LUMBER MEN OF VERNON PREPARING TO CARE FOR TWICE PRESENT POPULATION OF CITY AS RESULT OF OIL DISCOVERY

Estimates of Size of Town Six Months Hence Run From Ten to Twenty-Five Thousand Inhabitants—Fear Expressed That Transportation Facilities Will Prove Inadequate to Needs of Rapidly Growing Municipality.

Lumber men in Vernon are preparing for the task of taking care of a city twice the size of the present population of Vernon as the result of the bringing in of the Sigler well, and the expected influx of population following the spread of the news that a new pool has been opened up. According to the management of local lumber yards, there should be no local jump in materials for building due to shortage unless the railroads impose an embargo.

The danger of Vernon's becoming strangled through insufficient transportation is emphasized by the lumber dealers, who point out the fact that the bulk of the lumber and timber supplies must come from Louisiana and Arkansas and will normally get to Vernon over the Denver, but, due to the fact that this line is "bottlenecked" at Wichita Falls and again at Burk Burnett on account of congested yards and tremendous shipping activity, it is feared that much material will have to be routed via Oklahoma City and the Frisco. It is doubted if even this expedient will serve to relieve the situation unless large trackage improvements are carried out in the local yards.

Despite these difficulties the lumber men are optimistic, and believe that, aside from brick, and possibly cement, there will be an abundance of material for building at approximately the present level of prices.

EXPECTS HUGE INCREASE IN POPULATION.

"We are getting ready for a town of 25,000 in the next six months," said Fred W. Gardner of the Cameron Lumber Company. "We have on hand now rig material for six or eight oil rigs, and hope to be able to take care of a number more. I let this stuff accumulate here simply because I had faith in the Wilbarger field. I might have canceled the orders but I just had a hunch not to."

S. R. Pinkston of C. D. Shambarger's yard estimated that the next six months should see an addition of perhaps 4,000 or 5,000 people, and believed that his firm would be able to handle its share of the increased business without difficulty. Hub Colley of the same company, declared that they were now laying in stock on the basis of 25,000 people, but that he did not believe that the town could expand to any such proportions within six months for the reason that he did not see how they could build shelter for the people fast enough.

"If Vernon doubles her population within the next six months, I consider that the town will be doing mighty well," said J. L. Showers of the Herring-Showers Lumber Company. "We hope to do our part toward taking care of the business. I do not anticipate any jump in prices on account of local shortage. Of course the railroads might put on an embargo, and that would be pretty bad."

OIL LEASES BRING FABULOUS FIGURES

HUNDREDS COMING TO SEE OIL BOOM

TEN ACRES SELL FOR \$10,000 ALTHOUGH TWO MILES FROM PRODUCING WELL.

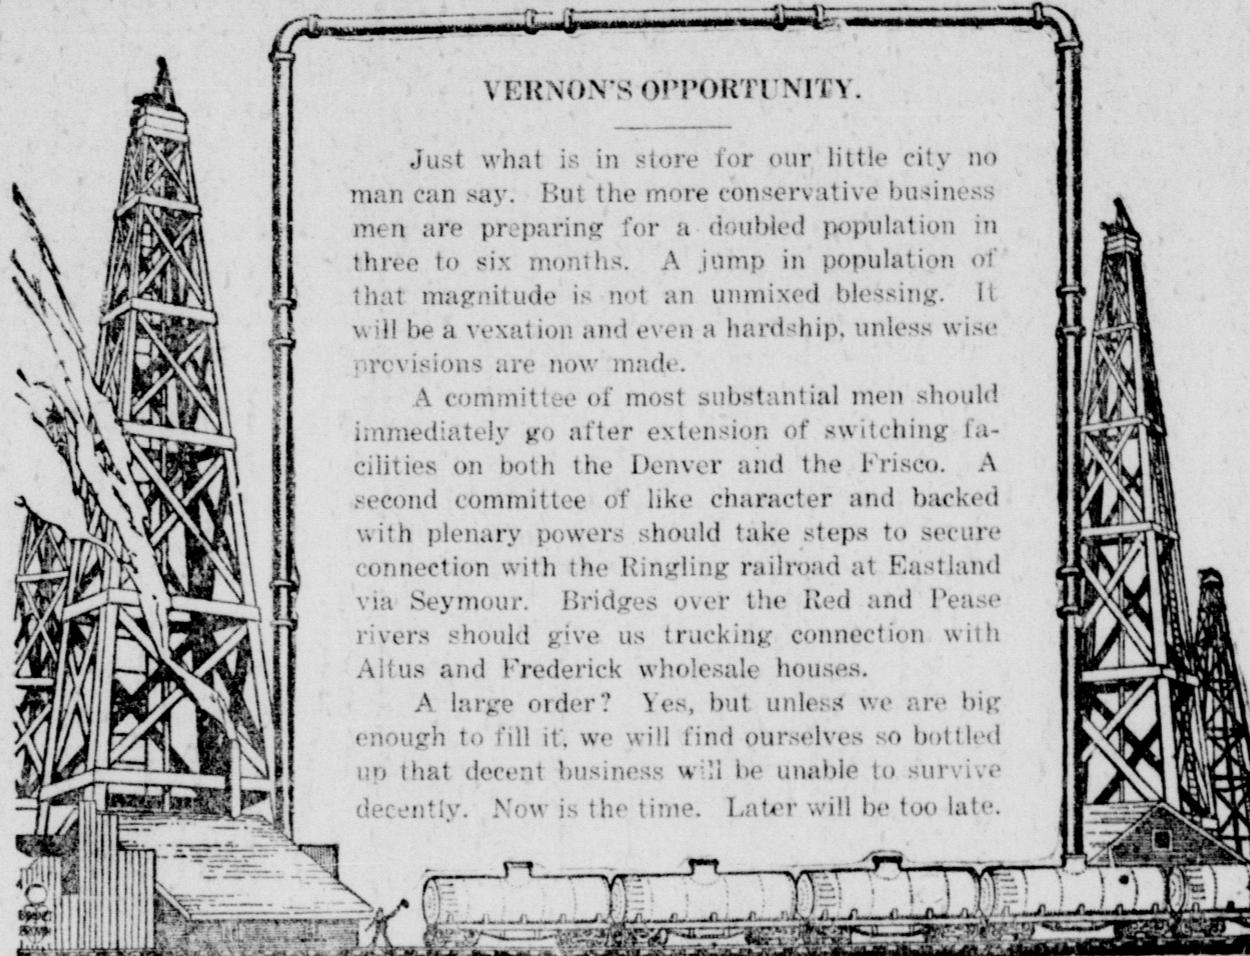

Oil leasing is no longer a game, it has become a desperate struggle. There are not hours enough of daylight to accommodate the lease men, and they spend even the night time in hunting up prospective lessors or assignees.

Figures have gone up and up until a price of \$1,000 per acre at a distance of two miles from the Sigler well has been attained. George F. Richardson leased ten acres at this figure yesterday afternoon.

Some of the "lease bounds" got wind of the sensational break over of the Sigler well on the morning it came in and were out in its vicinity before daylight, waking up farmers and acquiring acreage which they are reported to have unloaded later at large profits.

JUDGE R. W. HALL HERE.

Judge R. W. Hall of Amarillo is in Vernon. He formerly lived here, and still has interests in this county which the oil boom will materially affect.

VERNON'S OPPORTUNITY.

Just what is in store for our little city no man can say. But the more conservative business men are preparing for a doubled population in three to six months. A jump in population of that magnitude is not an unmixed blessing. It will be a vexation and even a hardship, unless wise provisions are now made.

A committee of most substantial men should immediately go after extension of switching facilities on both the Denver and the Frisco. A second committee of like character and backed with plenary powers should take steps to secure connection with the Ringling railroad at Eastland via Seymour. Bridges over the Red and Pease rivers should give us trucking connection with Alitus and Frederick wholesale houses.

A large order? Yes, but unless we are big enough to fill it, we will find ourselves so bottled up that decent business will be unable to survive decently. Now is the time. Later will be too late.

HOLIDAY EXPRESS RUSH EQUALLED BY REGULAR TRAFFIC

Extra Force Made Necessary by Christmas Jam of Shipments Is Held on Job by Increase in Regular Business Owing to Desire of Merchants to Obtain Prompt Shipments on Orders.

Shipments of express are showing rapid increase to Vernon and have been on the rise since last fall. There are three regular wagons hauling the express of the American Railway Express here and each of them carry from one to three trailers continually.

The trailers were added along about Christmas time but business has never stopped since that time, and the trailers have been needed more than ever. At Christmas time also several extra helpers were added to the working force of the local company and these too have been retained because of the increased business. The Christmas business made necessary the putting on of an embargo in this state as well as in Oklahoma and Arkansas; it was expected, was to be lifted after the first of the year but up to this time it is still in force even more strongly than ever.

O. S. Cornwell, local agent, does not give the oil boom all the credit for the steady increase in express shipments to Vernon. While there has been some oil materials sent here that way, he said yesterday that so far such shipments have hardly been more than normal. Most of the increase is due, he believes, to the fact that the scarcity of goods has caused merchants to demand express shipments in order that they be given preference on rush orders or that they be sure to receive their goods as quickly as possible.

The return of the railroads to private ownership has so far made very little change in the business of the express office, according to Mr. Cornwell, except in making the routing work of the office heavier.

REFINERY PLANS ALREADY ON WAY TO REALIZATION

Real Estate Transactions Near- ing Wild Scramble as Announcements of Transfers at High Figures Follow in Rapid Succession—Lutz Building Is Sold for \$45,000 to Sigler.

A deal has been consummated by which Lloyd Sigler, P. P. Langford and others of the Peoria-Prescott Oil Company acquire for a consideration of \$15,000, twenty-five acres along the Fort Worth & Denver right-of-way to be used as the site of an oil refinery. Max Knauth and J. H. Pettit were the vendors and the deal was handled through U. S. Davis. It is understood that the refinery will be constructed as quickly as possible and that pipe line connections will be rushed to connect the Sigler well with the new establishment.

Details are lacking with regard to the size of the refinery, but it has been estimated that employment will be given to probably 500 men in connection with the institution in various capacities, including pump stations and other lines of work. The proposed construction of the plant is re-

(Continued on page 6)

PROCLAMATION

To the citizens of Vernon:

On account of the conditions thrust upon us by oil development it has become necessary to utilize all rooms available in the city. The hotels are unable to accommodate the people who are coming in. If every person who has a spare room or can create a spare room will make the fact known to the mayor, to the hotels or to the Chamber of Commerce, it will help to relieve congested conditions. I urge all persons to put themselves to inconvenience if necessary to assist in this way.

HARRY MASON, Mayor.

400 MESSAGES IN 24 HOURS AFTER OIL WELL FLOWS

Western Union Telegraph Office Is Flooded With Night and Day Letters and Hurry-Up Dispatches—Company Will Enlarge Force as Business Requirements Demand.

Within twenty-four hours after the Sigler well went over the top of the derrick 400 messages announcing the news to the four corners of the United States were on file at the local Western Union Telegraph office, in addition to the regular run of business, according to Maurice Bonner, local manager. An extra operator and clerk has already been employed to handle the rush of business, and as soon as competent help can be added to the present staff the office will probably be open at night.

Mr. Bonner is confident that the company will maintain the Vernon office on a scale commensurate with the amount of business to be handled here, and believes that the town already has adequate wire facilities, all that will be needed to take care of the increased population expected as a result of the oil excitement being a number of key men.

Thus far the local force has been able to keep the number of messages on file down to a reasonable number, but the congestion is admitted to be growing on account of the arrival in increasing numbers of out-of-town oil operators who wish to get in immediate touch with their correspondents.

Rev. J. T. Bradbury Appointed.

Rev. John T. Bradbury, pastor of the Central Christian Church, has been appointed a member of the reception committee of the state convention of the Christian Church which meets in Galveston May 10-13. Mr. Bradbury was informed of his appointment in a letter received this week from Will H. Evans of Bonham, chairman of the convention.

CITY OF VERNON TAKES TO WATER

The photograph herewith shown is pronounced an unusual picture of the launching of a ten-thousand ton steamer. The vessel, named for Vernon, Texas, on account of the activity of citizens here during the Liberty Loan Drive, was released recently from the ways at Pensacola, Florida, 95 per cent complete. She was built by the United States Shipping Board, and is of steel.

PRESCOTT-PEORIA COMPANY OFFICIAL CONFIDENT NEW FIELD OPENED WILL EQUAL GREAT NORTHWEST EXTENSION

Announcement Made That New Holes Will Be Sunk as Fast as Material for Rigs Can Be Rushed in—Excitement Continues at Fever Heat as Developments Indicate Wilbarger to Be Next Petroleum Production Center of Texas.

The Prescott-Peoria well on the Wharton Ranch, about 12 or 13 miles south of Vernon, in Section 51, Block 2, blew in at 1 a. m. Wednesday, despite the most carefully laid plans of management and drillers to hold it down until Saturday, when it was intended to turn it loose in full view of a crowd to be assembled for the occasion. As a result of the lucky strike, Vernon is an oil town over night, leasing activities border on frenzy, and every train coming into Vernon is loaded to the guards with newcomers hungry for their share of quick and easy wealth.

The rush of oil hit the crown block and even went twenty feet above the top of the derrick, spattering the surrounding ground for a radius of 150 feet or more, coming from an eight-inch pipe at a depth of 2040 feet, with a penetration into the sand of but 18 inches.

The well flowed by heads and was placed under control at 7 o'clock Wednesday morning, when the casing was capped with a control head and all the tools placed on top of the well to hold down the immense pressure. The well was drilled with cable tools, the bit reached the top of the sand last Friday, drilling being continued thereafter with caution, but Wednesday morning, while the drillers were away, the well blew in.

The well flowed by heads and was placed under control at 7 o'clock Wednesday morning, when the casing was capped with a control head and all the tools placed on top of the well to hold down the immense pressure. The well was drilled with cable tools, the bit reached the top of the sand last Friday, drilling being continued thereafter with caution, but Wednesday morning, while the drillers were away, the well blew in.

FULLER PROPHESIES APRIL FIRST STORM

DECLARES INHABITANTS WILL DO WELL TO CLEAN OUT STORM CELLARS.

T. F. Fuller, 2 miles southwest, says that April is to be a month of storms and that the first twister will visit this section April 1. "Tell the folks," Mr. Fuller said to a reporter yesterday, "to clean out their storm cellars and be ready to get to them April 1st—and this is no April fool joke, either."

Mr. Fuller attained considerable popularity as a weather prophet hereabouts until the dry spell two or three years ago. "I kept telling them it would be dry and dry, until at last I had to up and leave myself. Finally I told them it was going to rain over West Texas and that I was coming back. It rained, and here I am."

Fuller says that he warned the carnival men and others in town of the coming of the stiff wind yesterday, but that the storm he now predicts will be a "pure enough storm."

QUARRY TWO YEARS BEHIND ON ORDERS

CITY ENGINEER AND PAVING CON. TRACTOR GET NO DEFINITE PROMISES.

City Engineer A. J. Robinson and R. H. Standifer of the H. K. McCollum company, paving contractors, returned Wednesday from a trip to Granite, Oklahoma, where they went to investigate the grade of crushed granite turned out at the state reformatory quarries. According to the city engineer the rock will be acceptable to the city, on its paving contract, but that the likelihood of large or prompt shipments is extremely small.

The quarry authorities told the Vernon men that they were two years behind with their orders, despite the fact that they are working about 200 prisoners, and are getting out from eight to ten cars of rock per day.

Mr. Robinson took occasion to look over the establishment for the housing of the prisoners and found everything in modern condition. The cell buildings are of granite with separate cells for each man, with electric light and toilet facilities for each man. The prison has its own dairy and laundry, and is practically a unit to itself. There is a large farm in connection which supplies many articles of food.

Although the quarry is known as a "reformatory" project, it is really a branch penitentiary, according to Mr. Robinson, it having been found that young boys were not strong enough for the work in the quarry. The class of men at work, however, were not the coarsened type that would be expected, but for the most part seemed pretty fair specimens of manhood, Mr. Robinson declared.

Rayland News.

Rayland, March 25.—(By special correspondence)—Mrs. Sam Allen and son, Paris, left Saturday for Eldorado, Kans., to visit their daughter and sister, Mrs. Verde Robinson. They will be gone several weeks.

G. W. Jordan and family will move to Vernon next week.

Farmers are plowing and getting their land in shape for another crop.

There was singing at the Methodist Church Sunday night, it was well attended.

Rev. W. W. Adams preached Sunday morning and evening at the Baptist Church.

One of Jim Jordan's children has been real sick this week with chicken pox, but is better now.

School is progressing nicely now. The children are nearly all able to be back in school.

Mrs. Jerry Clark spent the evening Tuesday with Grandma Jordan.

Will Green and family spent the day Sunday with George Jordan and family.

Rayland is building up. There are four tents gone up in the last few days. It will soon be called Rayland.

instead of Rayland.

The gin is still running steady. Lots of bollies to be ginned yet.

Tony Allen has moved across the river on the Mears place.

Miss Vera Hughes ate dinner with Miss Norm and Iva Martin Sunday.

Sam Allen received a letter this week, that his brother-in-law, Jep Armstrong, of Turk, Okla., was very low with pneumonia.

Mrs. A. T. Beazley has been on the sick list this week.

Harvey Green of Crockett, Texas, arrived last Tuesday to visit his uncle, Harris Hughes, of Lockett.

George Jordan's child that was burned three months ago, is improving some, but is still in bad shape. His left leg was badly burned from coal oil spilt on his overalls, which he set it a fire to burn the oil off and like to burned to death before they could put the fire out.

East Vernon News.

East Vernon, March 24.—(By special correspondence)—The East Vernon senior basketball team played a game with Farmers Valley last Saturday. The score being 42 and 2 in favor of East Vernon.

Ed S. Smith of Vernon is busy this week building a new barn on his place

In place of an Easter Card—

KRAMER STUDIO

BRADBURY BEGINS REVIVAL SERVICE

CAPTAIN MCLEAN TO LEAD SING- ING AT CENTRAL CHRIS- TIAN CHURCH.

Rev. John T. Bradbury of the Central Christian Church has authorized the following announcement:

"The pastor, officers and members of the Central Christian Church cordially invite you and your family, and friends who have no other church home, to gather with us during the week of our protracted services, beginning Sunday morning, March 28th, and continuing through Easter.

"Captain H. A. MacLean will lead the song services, and the pastor will preach each evening at 7:45 on such themes as will exalt Christ and humble his subjects. Any other ambition would not be worthy of the sacred institution which the Lord Himself established.

"We plead for an opportunity to make a contribution to the life and welfare of your family, and to serve the community and the world in the way that Christ would have this church serve.

"The pastor's subject for Sunday morning will be, 'The World's Return to God'; Sunday evening, 'Safety in Christ'; Bible School Sunday 9:45 a.m.

"Our school is growing, new pupils are being added to our rolls every Sunday. Come and help us make next Sunday the greatest day in the history of the school."

J. W. Hudson of Dallas is visiting his mother-in-law, Mrs. M. A. Dixon.

James Garrett left Wednesday afternoon for Tulsa. He is figuring on locating on the Plains.

Warren George, formerly assistant cashier of the Herring National Bank, came in yesterday. Mr. George expects to take a "turn" in the oil development.

R. M. Bruner came from Kansas City last night. Mr. Bruner left Vernon a few weeks ago, going to Pittsburgh, Penn., where he sold a quantity of leases. He has had unbounded confidence in Wilbarger county.

Handcuff King Will Exhibit.
Jack O'Day, handcuff king, will give an exhibition on the courthouse square Saturday afternoon. He will be placed in a straight jacket and handcuffed, after which he will be suspended in the air by the feet, from which position he will extricate himself. The straight jacket will be put on by local citizens, so that there will be no question of its genuineness. A reward of \$100 is offered to any man who can perform the stunt, the handcuff king says.

J. R. Jones' real estate office is on North Main street in Ferguson building.

RECORD OIL EXTRA POPULAR.

Issue of Local Newspaper Telling of the Sigler Well Near Vernon
Wanted Everywhere.

The extra issue Wednesday morning by The Vernon Record, telling of the Sigler well created a sensation. Talk had been general all morning, but very little was actually known.

Demand for the extra continued throughout the afternoon, and visitors coming in Thursday morning called for copies. Numerous orders for large numbers of the extra to be mailed out had to be refused because the supply had been exhausted.

Orders came from Wichita Falls, and one man sent word from Dallas for a number of copies of the oil extra.

Burkburnett Oil Derrick Burned.

Reports from Burkburnett are to the effect that a derrick belonging to the Southwestern Petroleum Company burned Saturday, both rig and derrick being entirely consumed. The blaze, leaping high in the air, is said to have attracted attention for miles around.

The pastor's subject for Sunday morning will be, 'The World's Return to God'; Sunday evening, 'Safety in Christ'; Bible School Sunday 9:45 a.m.

Keep Your Liver Active, Your System Purified and Free From Colds by Taking Calotabs, the Nausealess Calomel Tablets, that are Delightful, Safe and Sure.

Physicians and Druggists are advising their friends to keep their systems purified and their organs in perfect working order and protection against the return of influenza. They know that a clogged up system and a lazy liver favor colds, influenza and serious complications.

To cut short a cold overnight and to prevent serious complications take one Calotab at bedtime with a swallow of water—that's all. No salts, no nausea, no griping, no sickness after effects. Next morning your cold has vanished, your liver is active, your system is purified and refreshed and you are feeling fine with a hearty appetite for breakfast. Eat what you please—no danger.

Calotabs are sold only in original sealed packages, price thirty-five cents. Every druggist is authorized to refund your money if you are not perfectly delighted with Calotabs.—(Adv.)

WASHINGTON FAVORS VOTES FOR WOMEN

ONLY ONE MORE STATE NEEDED TO MAKE FEDERAL SUFFRAGE AMENDMENT EFFECTIVE.

Thirty-five States have ratified the Federal woman suffrage amendment; only one more is necessary to give effect to the amendment. The Legislatures of Washington and Delaware met in special session Wednesday and that of Washington completed ratification of the amendment before the close of the day's session. Suffrage leaders feel confident ratification of the amendment by Delaware will be completed before the end of the week. In this situation the National Woman's Party has given out a statement of the "Standing of the Deams," as follows. (D means Democratic and R. Republican):

Ratification Results.

18,885,000 women are made eligible to vote in all elections.
17,000,000 were already entitled to

vote for President under State laws. 7,000,000 were already entitled to vote for members of Congress under State laws.

(These figures are number of women 21 and over in the United States, according to estimate based on 1910 census.)

Florida and Tennessee can not act until next year, as the Constitutions of these States provide that a Legislature can not ratify an amendment of the Federal Constitution unless such Legislature shall have been elected after the submission of such amendment.

IOWA PARK FIELD EXTENDED.

Texas Company Brings in Producer
Good for 100 Barrels from \$40
Foot Sand.

Iowa Park, Texas, March 26.—The completion of the Texas Company well on the Chenosky lease on the Will Burnett ranch, two miles southwest of town, at 820 feet, producing better than 10 barrels a day, has proved up considerable territory nearer town than had before been tested out. The completion this week of the best well due south of town about two miles on the Winfrey farm at 820 feet puts the shallow field on the map of good producers. This well has been on the line for five days, averaging 100 barrels a day.

A star rig has been hauled to the Abernathy ranch, three miles northwest of town, for an 800-foot well that is being put down by Frank B. Malone and Cole of Dallas. A derrick is being erected, so that if pay is not struck at 80 feet they will put a standard on and go deeper.

The Clois Green deep test well on the Zink farm, one mile south of town, is now 1,650 feet, with a good showing, waiting for tanks and pipe line connection.

The best information obtained from the men in charge of the Humble well, one mile west of the original is that this well is producing better than a hundred barrels a day. A standard rig is being installed to drill in with the sand not having been pierced but about a foot or so.

The company that started the deep test on the Troutman farm, two and a half miles north of town, is now down 700 feet, but no showing in sight yet. A new company has been formed to take over the lease and the well started on the Watkins tract, three miles north of town, and it has contracted for a 2,000 foot hole to start at once.

With these operations progressing and the well that is nearing the 1,800-foot mark on the Rathke tract, six miles northwest, the prospects for a further and greater rush here is good. Caterpillar tractors that pull twenty to twenty-five tons at a time and large trucks are busy by the score pulling easings and rigs on the ground for more new wells constantly.

For truck hauling of all kinds call Howard Heath, 502 or 496. 21-Ste

WORE NO SHOES FOR TWO YEARS

Los Angeles Woman Lived In Bed
And Pillowed Chair Until She
Started on Tanlac.

"I had to be cared for just like a baby before I began taking Tanlac," said Mrs. Alice Murphy, of 1501 Pennsylvania Ave., Los Angeles Calif.

"Two years ago I had a very severe attack of muscular rheumatism," she continued, "and no one knows the pain and torture I have suffered since. My hands swelled until I could hardly work my fingers and I haven't been able to put on a pair of shoes because my feet were swollen so. I had sharp pains through my back so bad that at times I simply could not keep from screaming. Sometimes I got so dizzy everything seemed to spin around and then I would have sharp pains and a chilly feeling afterwards. I was so helpless that I lived propped up with pillows in a chair or in bed all the time and had to be helped from one place to another.

"I tried every medicine or treatment we could hear of, but it was money thrown away and I got so blue I did not care to live. Then my husband read in the papers about Tanlac and by the time I had taken it four or five days I saw it was helping me. Now, after taking several bottles, I can't praise Tanlac enough. My nerves are so much better I sleep like a child all night long. I am already doing my housework again and it is the first time in two years I have been able to get around at all and wear my shoes."

Tanlac is sold in Vernon by T. M. Ferguson Drug Company, in Harrold by Wilson Drug Company, and in Odell by R. J. Belcher.

Undergoes Second Operation.

Mrs. V. V. Case underwent a second operation yesterday, following an operation about ten days ago for appendicitis. Mrs. Case is at the home of her father, E. A. Whittington, on West Wilbarger street, which has been Smith streets.

SUDAN-LITTLEFIELD LAND

Grows More Valuable Daily

The oil boom here makes it possible for the making of big money on Wilbarger county land.

That money put into Sudan Littlefield land is a sure investment. You can't fail on farm land that is productive and the farm land in the Littlefield country will produce everything grown on the best of land in Wilbarger.

Cook county won third prize in 1917 at the State Fair, the only time she competed for honors.

Think over this Sudan Littlefield opportunity.

Vernon, Texas, Tuesday, March 26, 1920

STATESMANSHIP AND BEANS.

To the uninitiated there is little connection between statesmanship and beans. At first blush a man would be tempted to declare that there was no connection whatever. A statesman's mind is supposed to be taken up with questions of constitutionality, discussions of supply and demand, social unrest and great problems in sociology, economics and government. But suppose we read the following letter, quoted in a Fort Worth paper:

"Washington, D. C., March 15, 1920.—I have had considerable difficulty in getting some bean seed to send to you, but after diligent effort in this regard

I have succeeded in making an exchange with a New York congressman by which I could secure them and am sending a sack of them to you today.

(Signed) FRITZ G. LANHAM."

Congressman Fritz G. Lanham is one of the most brilliant young men in the Texas delegation. It is not unreasonable to suppose that when he first went to Washington he expected to devote considerable time to the investigation of questions of state and to settling matters of moment in the interest of the people. But Fritz is nobody's fool, and when he got to his job he readily found out that postoffices and garden seed are more to be reckoned with than parliamentary expertise or forensic prowess.

In other words Fritz got down to beans. In fact, beans and patronage and running errands for the folks back home who want this, or don't want that, from some administrative department of the government on behalf of a private scheme of theirs,—these things have absorbed so much of the modern statesman's time that he is little better than a sort of political bellhop for his constituents. That is one of the reasons why the reputation of congress has suffered as a legislative body.

A REASONABLE REGULATION.

Since practically all of the business men showed willingness to co-operate with the clean-up campaign when the recent inspection was made, it is reasonable to assume that there will be little difficulty in making Vernon a really clean town. Many back yards are not clean, and there are unsightly alleys, but the chief offense of merchants seems to have been open containers for fruits and vegetables.

The state regulation requiring fruits and vegetables to be displayed in dust proof, as well as fly proof, containers is not unreasonable. It is based on considerations of health. If one contemplates the situation, there is as much to complain of in the matter of dust as flies.

Horses stand on our streets and other filth there dries into dust to be blown by every wind. This accumulates on exposed

foods even more than does the filth tracked on them by flies.

ANNOUNCEMENTS.

Subject to the action of the Democratic Primaries, July 24, 1920:

For Commissioner, (Place No. 1):

J. MYATT NAPIER

For Commissioner Place 2:

J. D. KEY

This dust carries germs of every description, and is doubtless responsible, from time to time, for the snuffing out of little lives.

The question of sanitation now is entirely up to the women. Merchants will do as the women insist because it is the trade of the women that makes the merchant prosperous.

Cleaning up and providing dust proof containers for fruits and vegetables will be inexpensive and easy.

EDUCATION AND HEALTH.

The state superintendent of public instruction is urging the teaching of hygiene and nursing in public schools. This is done now in an elemental way—so elemental in many schools that it is of little practical worth.

If it were a question of choice between ignorance of hygiene and minds steeped with arts and sciences, or practical training in matters of health and less knowledge of books, few would hesitate to choose. However, there is no need of letting books suffer in order to train the youth in fundamental rules of health.

Even if it were necessary to continue the high school course a year, doubtless more young people would continue their courses for having an appreciation of practical knowledge received. Undoubtedly that is not necessary.

Some high school courses could undoubtedly be eliminated in the interest of more thorough study of health hygiene and care of the sick and the pupil still be gainer. After all, it isn't the mass of facts the high school pupil gets that are of value. If he has a sound body and an appreciation of what keeping fit means to him, and is taught somewhat more how to study, most every student will secure facts and continue securing them.

GROWLING ABOUT TAXES.

A certain proportion of the dissatisfaction with the income tax is legitimately voiced and is backed by legitimate reasons. But there can be no doubt that a large part of the grumbling and growling which has been elicited is the result merely of the fact that somebody has had to contribute to the government, and would have been heard no matter in what form of tax the money might be exacted.

By all means the income tax should be revised where injustice is manifest and avoidable. But while it may be readjusted, it is folly to lighten it any faster than the lessening of the public debt justifies.

The world has had its dance with death and now it must pay the piper. Delay will only add to the fee.

FOSTER'S WEATHER BULLETIN

(Copyrighted by W. T. Foster.)

Washington, D. C., March 26.—Warm waves will reach Vancouver about March 30, April 6, 11, 16 and temperatures will rise on all the Pacific slope. They will cross crest of Rockies by close of March 31, April 7, 12, 17; plains sections April 1, 8, 13, 18; meridian 90, upper great lakes, lower Mississippi valleys, Ohio-Tennessee valleys 2, 8, 14, 19; eastern sections 3, 10, 15, 20, reaching vicinity of Newfoundland about April 4, 11, 16, 21. Storm waves will follow about one day behind warm waves, cool waves about one day behind storm waves.

These disturbances will dominate the weather of North America from near March 30 to April 21. Most severe storms and most precipitation are expected during the weeks centering on April 9 and 21. Some indication that about April 20 dangerous storms will occur. Locations and amount of precipitation will be about as for the past 30 days.

Moisture to feed the eastward drifting storm centers will continue to come from the Gulf of Mexico, Caribbean Sea and the Atlantic east of Porto Rico. That moisture goes toward the storm centers that come from the extreme northwest. The wind coming from the Gulf of Mexico blows into these storms and therefore changes as the storms move eastward. First it blows toward the northwest from the Gulf, then north as the storms move eastward. Most rain falls on the southern or southeastern slopes, while the storms are in the Rockies or in the plains sections. But after the storms have past east of meridian 90 the wind will blow more eastward or

will be on the westward slopes in the northeastward and most precipitation the valley extending east and west.

For these reasons I expect from about normal to excessive precipitation east of meridian 90 during April and also on the southern slopes between crest of Rockies and meridian 90. But the valleys extending east and west, with high lands south of them—between meridian 90 and Rockies crest—are expected to be short on precipitation for April. Excessive precipitation is expected about the great lakes and at least sufficient moisture in all northeastern sections north of Washington, D. C.

Ideal methods of agriculture are changing. The cotton States are giving more attention to human food and well they should. Many good farms in the cotton States have been ruined by perpetually planting cotton. Northern farmers also have a great problem before them. The automobiles in war and agriculture are knocking out the demand for horses while the lack of grazing wild lands and the methods of profiteers are making beef too high for use. We are drifting toward the methods of China and Japan, where meats are not so popular and where the lands are used to produce cereals and fruits for human food. These changes are at hand and will enrich the productiveness of our farms and restore many farms that have been abandoned. The money now invested in live stock will be put into mills and factories and nothing but the manufactured articles from grain and cotton shipped from the States where produced. That new kind of "States Rights" will work well.

"The people are taking the matter of this rush in good humor, and as a result the people coming here are keeping in a good humor. This gives the visitor a fine impression of the town, and makes the hardships which we must all necessarily undergo a lot easier. It will be fine if the people keep on smiling."

Thalia Young People Wed.
L. D. Mansel and Miss Rubie Haynes of Thalia were married Wednesday by Justice T. J. Griffiths. The ceremony was performed at Mr. Griffiths' home in Southwest Vernon. The young people will make their home in the Thalia community.

Mr. and Mrs. J. P. McCaleb are visiting at the home of Mr. and Mrs. W. M. McCaleb for a few days.

Will Voddo of Electra is in Vernon for a few days on business.

Eyes Made Equal

If your eyes are not working together—if one of them is unequal to its task—you are under a great disadvantage.

If your eyes are not serving you properly, everything you do will be worse than it should be—though seeming right to you.

Think what this means. How easily a reputation for skill may slip away from you and your earning capacity lessened!

You can only be at your best while both eyes are giving you their best service. If they are not, waste no time in hesitation, but call and let us make a careful examination.

CULTURE CLUB HAS PROGRAM TUESDAY

MANY LADIES OF VERNON AT-
TEND AFFAIR GIVEN AT HOME
OF MRS. J. H. E. YOUNG.

The Culture Club members observed "Guest Day," Tuesday afternoon with Mrs. J. H. E. Young as hostess at her home on West Paradise street.

Mrs. J. G. McCarroll received the guests at the door and presented them to the officers in the receiving line; Mesdames J. H. E. Young, the hostess, S. E. Lloyd, W. E. Mayes, Etta Long, J. A. Lucky, W. T. Rouse and G. W. Backus. After leaving the receiving party, the guests were conducted to their places by Mesdames Harper Reed and H. A. Thompson.

Mrs. S. E. Lloyd, the president spoke a few words of welcome to the guests and the following program was carried out, which had been prepared by Mrs. L. E. Fisher, director of music:

Piano Duet, Quartette from "Rigoletto," Verdi; Mesdames Phillips and Fisher; piano solo, "To Spring," Grieg; Mrs. T. L. Rouse; vocal trio, "Birds are Singing," Clayton Thomas.

Mesdames Corley, Warlick and Phillips. "What the Club Women of Vernon are Accomplishing," Mrs. Bertha A. Ross; Piano solo, "Second Muzurka," Godard; Mrs. L. E. Fisher; vocal duet, "Spring Time," Alfred Wooler; Mesdames Corley and Phillips; piano duet, "Faust Waltz," Gounod; Mesdames Phillips and Fisher.

At the conclusion of the program, the assistant hostesses, Mrs. O. T. Warlick, G. W. Backus and H. A. Thompson served an ice course. The house was decorated in the club colors, gold and white and the club flower the daisy.

The following ladies were present as guests of the club members: Mesdames H. B. Wilhelm, J. D. Farnell, A. A. Honaker, J. B. Ross, Gilman, W. P. Garvin, Ed Barcus, J. H. McGaugh, Rena M. Watts, Lynn W. Landrum, C. J. Farrell, J. W. Wheatley, Harry Colley, J. J. McGaughay, O. A. Branson, J. E. Collins, Etta Stewart of Ackworth, Ga.

Is Confident of Harrold Section.
R. E. Bottensus, president of the Harrold Texas Oil Company, was in Vernon yesterday. Mr. Bottensus has only recently returned from New York City. He is confident of the Harrold section. The holdings of the Harrold Texas Oil Company adjoin the lease of the Texas & Pacific well, which is on the oil sand.

If you want the best the market affords in the way of cutlery and everything in the way of hardware, queen's ware, enamelware and aluminum, see J. R. Renfro. 71-tfc

OTHER REASONS FOR H. G. L. BESIDES SPECULATION

The following paragraphs are extracts from an address by Eugene Davenport of the Illinois College of Agriculture, before the Illinois Agricultural Association:

"The Farm Bureau and its federations, state and national, constitute at once the most progressive, the most rational, and the most powerful organization ever devised by farmers. This organization is rational, or ought to be, because it is founded and officered by the best and sanest individualists by the best and sanest individuals of the profession, not by the most radical, as is often the case, especially with organized labor. It is representative because it is nation-wide, reaching down to the actual man on his farm. And it is powerful, because it will soon represent the combined strength as well as wisdom of at least a fourth of the farmers of America."

"It may as well be written down as axiomatic that if this great organization is to do the work that needs to be done in and for agriculture now, it must never lose its temper, and it must never lose the respect of its associated industries and interests."

"The first step in the return to normal—not to pre-war conditions, which we shall never see, but to normal—is to produce more of the necessities and to direct more labor away from luxuries, which will be done only as we refuse to buy luxuries while necessities are scarce. The next step is to reduce the volume of the currency, or else, to make it good by production, and this will come about only as we pay our debts and get really solvent again. Let this association be not deceived in the fundamentals of plain

economics. Prices are high for four very good reasons. They are: 1. The greatly increased currency, nearly doubled in four years, enough of itself to account for what happens. 2. Reduced production, which was inevitable when something like one million men and women stopped producing not only luxuries, but also necessities, and began the wholesale business of destruction. 3. A wild saturnalia of extravagance in buying, in which nothing is too costly or too gorgeous to suit us. 4. Speculation. The last is also the least by far, and yet it is the only one we talk about, and we are going out in our fur coats, and diamond rings and new wrist watches to punish the profiteers!"—Progressive Farmer.

Money to Loan.

Wild and weird were our old delusions

WE KNOW THE TRUTH ABOUT

COFFEE

We marvel at our old superstitions. It is hard to believe now that more than 30,000 women have been condemned as witches!

Frenzy and prejudice mark the development of progress in many directions. Even coffee—the most popular and beneficial of all beverages,—has not wholly escaped.

Despite the fact that food faddists and temperamental experiments have assailed coffee, it has become the universal drink of this great level-headed nation.

There can be no question about the soothing, nourishing, invigorating effects of good, pure, coffee. It lightens fatigue, sustains energy and aids digestion.

SIGNIFICANT—The American House-keeper says:—"Coffee is of great value. It is one of the best aids to the ailing. Coffee is stimulating but not depressing."

A FOOLISH CUSTOM HAS GROWN UP IN AMERICA of buying coffee in a can at a useless waste of 20 to 25 cents per pound

What you should insist on is Fresh Roasted Fresh Ground Coffee.

Your merchant should protect you against stale coffee in tin and handle the best grades of bulk coffee bought by their true name GROUND WHILE YOU WAIT.

BURKBURNETT FIELD IS EXTENDED SOUTH

WELL IN PARTIALLY CONDEMNED TERRITORY REPORTED GOOD FOR 1,000 BARRELS.

Wichita Falls, Texas, March 25.—The Burk-Waggner and the South Burkburnett pools furnish the most interesting news of the current week, the former showing with two 1,000-barrels in partially condemned territory, and the latter extending its bounds with two more good wells from the 1,200-foot pay.

A test of the 1,230-foot sand in the Price-Gamble well, on the Hansard farm, in Clay County, has not yet been made. Six and five-eighth-inch casing has been set, with a packer, and completion of the well is expected shortly. Estimates of the well range up to 200 barrels, but the fact that the water trouble has not yet been controlled is preventing operators from being overoptimistic. Reports of water trouble continue to come from various tests in the Kemp-Munger-Allen district, and the number of completions remains at two—the original well and the Humble well.

The south end of the Michna tract, in block 819, in territory that had been considered condemned because of several dry holes in the vicinity, has witnessed the bringing in of two excellent wells. The Texas Company's No. 1 C. Birk is reported as a 1,000-barreler and the well of Danieger & Emerich and the Hull-Tex Company, an offset to it, is now reported as a producer of equal size. The W. F. George tract, which these wells offset, has for some months been considered the dead line for production in that section of the Waggner pool, and the week's developments have revived interest in that particular district.

Wells Extend Field.
In the South Burkburnett district, the well of the Pioneer Production Company on the Roller, 125 barrels, and the well of the Associated Producers on the Summerville, 75 to 100 barrels, extend the pool to the west and south, respectively, and give promise of much additional development in that shallow district. The wells extend the field about two miles in each direction, the Summerville farm being probably the closest production to

Wichita Falls. Most of the acreage is held by the larger companies, who have leases on big blocks. There are reports of a new sand in the South Burkburnett field, the Tandy test on the Roller having struck a new stratum at about 1,400 feet. Most of the production in this district is from about 1,200 feet.

In Tillman county two tests not far from the Testerman well are standardizing, preparatory to completing. These are the Panhandle Oil and Refining and the Gypsy tests, both in section 7. The Testerman well continues to flow by heads, but the work of standardizing has not been finished. The well will probably be drilled in early next week.

There is little news of a definite nature from the K-M-A sector. K-M-A No. 2, is standardizing and should be ready to complete by the end of next week.

F. H. Gohlike, J. S. Bridwell and others of this city have made location for a well on land owned by J. W. Culbertson, near Dean Station, in Clay county.

TEXAN URGES PALMER'S NAME AS PRESIDENTIAL NOMINEE

Representative Claude Hudspeth of El Paso is for Attorney General Palmer as the Democratic presidential nomination. Fresh from the annual meeting of the Cattle Raisers' Association in Houston, Mr. Hudspeth gave out the following statement to Washington correspondents:

"I am only speaking for myself," said Mr. Hudspeth, "but I heard a great many Texas cattlemen attending that meeting declare they were for Palmer. The cattlemen with whom I came in contact feel that the court decree entered against the packers by the Department of Justice, is the only relief that has been obtained up to this time."

Oklahoma Will Lease Disputed Land.

Leases on all the land in the bed of the Red River in Cotton and Tillman Counties, including all the property in dispute between Oklahoma and Texas, and the bed of the Red River to the south bank as claimed by Oklahoma as the boundary between the two States, will be offered for sale by the Commissioners of the State Capitol on the afternoon of April 6, according to an advertisement being published by the Land Office. Bonus bids for leases on this disputed land are payable only in oil, according to the terms of the sale.

REFINERY PLANS ALREADY ON WAY TO REALIZATION

(Continued from page 1)

garded locally as the strongest possible confirmation of the confidence entertained by the Peoria-Prescott officials in the output of their well.

Real estate transactions have been taking on an aspect akin almost to a wild scramble. The Lutz building is reported to have brought \$45,000 on the night that the big well came in. The W. B. Townsend building has been sold for \$22,500. Three buildings on the south side of the square are reported to have been sold by W. H. Evans for \$40,000. The C. E. Basham home has been sold for \$15,000. Many other deals have been reported. The Shive addition has been purchased at a fancy figure by J. C. Summer, W. O. Powell, S. H. Hall, Frank E. Murdoch and R. H. Coffey. This transfer includes 25 lots between West Wilbarger and West Texas. It is stated that they will not be put on the market at present.

Rumors have been current of deals at fabulous sums. One of the hotels here is reported to have refused an offer of \$80,000 and another to have declined to sell for \$100,000. These rumors are unconfirmed.

NEW COLLEGE AT ABILENE

Educational Board of Methodist Church Accepts Offer of \$300,000 In Money and Building Site.

Abilene is to have a class A senior college, according to plans of the educational board of the Northwest Texas Conference of the Methodist Church. This decision was reached Friday.

The contest was between Abilene and Stamford. Abilene made an offer of \$300,000, a building site valued at \$50,000, and perpetual free water. Stamford's offer was \$205,000, supplemented by a tentative offer of \$100,000.

The board agreed to recommend Abilene if an additional \$100,000 was raised as an endowment to add to the \$150,000 offered by the general board of education.

The recommendation of the board is subject to ratification by the Northwest Texas Conference in November, and it has been stated that Stamford will carry its contest to the Conference. Stamford was the seat of a junior college, which burned about a year ago.

Rev. J. W. Hunt, pastor of St. Paul's Methodist Church in Abilene, and former president of Stamford College, led the fight for Abilene. Mr. Hunt was at one time pastor in Vernon and is well known here.

Phone 66

The pastor, officers and members of the Central Christian Church cordially invite you and your family and friends who have no other church home, to gather with us during the week of our protracted services, beginning Sunday morning, March 28th, and continuing through Easter. Captain H. A. MacLean will lead the song services and the pastor will preach each evening at 7:45 on such themes as will exalt Christ and humble his subjects. Any other ambition would not be worth of the sacred institution which the Lord Himself established.

OIL DEVELOPMENT NOT LIMITED TO SOUTH WILBARGER

Entire County Is Being Subjected to Test by Numbers of Wells of Wildcat and Proved Field Character—Many Wells Nearing Level Where Developments Are Expected.

Wilbarger county's development is not limited to the Sigler pool, as tests are going down in every portion of the county, both in wildcat and proved areas. The drilling report, prepared with the assistance of the Wilbarger County Abstract Company is as follows:

The following is the drilling report up to March 24:

American Eagle Oil & Gas Company Kelly, Section 54, Block 13, 1740 feet, drilling.

Apx Oil Company, Section 36, Block 13, Fergeson, rig down, 1385 feet.

Atlantic Petroleum Co., Ltd., Boyd, Section 16, Block 14, drilling 900 feet.

Big Waggoner Oil Co., No. 1, Katherine Waggoner, Section 26, Block 12, drilling at 950 feet.

Border States Oil Co., Boyd, Section 17, Block 14, moving tools.

Byars Farm Oil Company, Byars, Section 69, Block 12, drilling at 2240 feet.

Beaver Farm Oil Company, Womack, shut down, 956 feet.

Crescent Cove Oil Company, J. P. Starr, Section 7, Block 15, moving tools.

Castlebury Oil & Gas Company, Castlebury, Section 67, Block 14, location.

Clio Oil Company, 32 acres in Block 39, location.

Garner Oil Company, Wells, Section 48, Block 15, ready to spud.

Federal Oil Company, Baker, Section 29, Block 5, shut down at 1800 feet, installing star rig to complete.

Gulf Production Company, No. 1, McCaleb, Section 67, Block 15, drilling 2250 feet.

Harrington & Robinson, No. 1, McCaleb, Section 67, Block 15, drilling 1670 feet.

Guyer-Trisler Oil Company, Guyer No. 1, Subdivision No. 122, Waggoner colony land, drilling 2100 feet.

Idan-Cook et al., No. 1, Webb, setting casing at 900 feet.

Frost-Dilts, et al., Willis Vaughn, Section 5, Block 15, drilling 1630 feet in line.

Mrs. W. A. Vaughn, Sr., Section 20, Block 16, derrick.

Tex-Wyo Company, Williams, Section 76, Block 14, underreaming at 900 feet.

Texas Pacific Oil Company, Section 39, Block 13, 1730 feet, installing star rig to drill in.

Neal-Hamilton, No. 1, Neal, Section 26, Block 11, drilled through salt water, setting 6 5/8 inch casing, shut down boiler trouble, 2240 feet.

Noble Oil and Development Company, section 45, Block 14, Judd, setting 10 inch casing at 665 feet.

Magnolia Petroleum Co., Green, Section 32, Block 15, rigging up.

Minnesota Southern Oil Company, Collingsworth survey, shut down at 1520 feet.

Mitchell Farm Oil Co., Mitchell, Waggoner Colony, removing star rig to install standard tools, building derrick, 1020 feet.

Pope Oil Company, No. 1, Raesner, Section 43, Block 13, 2652 feet. No report.

Harrold-Texas Oil Company, No. 1, Cochran, Sections 47 and 48, Block 13, spudded in.

Vassey-Odell Oil Company, Vassey, Section 4, Block 11, drilling at 900 feet.

Home Oil Refining Co., with leases on 280,000 acres in the Waggoner ranch—Guy Waggoner Number 1, Section 35, Block 1, cleaning out, 1700 feet; No. 1, Paul Waggoner, Section 9, Block 1, 1350 feet, cleaning out; Nos. 3, 4, 5, and 7, timbers; Nos. 8, to 12, locations.

Texas Crescent Oil Company, Section 24, Block 13, drilling at 1336 feet.

Twin Six Oil Company, Smith well, in Section 25, Block 13, shut down, 1600 feet.

Tex-O-Wa Oil Company (formerly Aetna) No. 1, Goss, Subdivision 23, Waggoner Colony, 1450 feet, drilling.

S. & R. Oil Company, Hancock, setting 12 1/2 inch casing at 900 feet.

Staley & Greene, Ayers, No. 1, Section 25, Block 10, rigging up.

Vernon Oil & Development Company, No. 1, Lowe, Section 94, Block 15, underreaming at 1705 feet.

Waggoner Colony Oil Company, Taylor No. 1, Section 55, Block 13, 1910 feet, pipe collapsed.

Webb-Magnus, et al., Luther Webb farm, Section 46, Block 12, underreaming at 1600 feet.

Penn-Burk Oil Company, West Vernon No. 1, Hurt, Section 91, Block 14, waiting on underreamer.

Wilbarger-Hardeman County Oil Company, Durham, Section 67, Block 16, 365 feet, shut down.

Wilbarger County Oil Company, Carter, Section 21, Block 10, waiting on 15 1/2 inch casing, 150 feet.

Kansas City Petroleum Company, No. 1, King, Section 72, Block 12, derrick.

P. L. Langford, et al., (Moonshine Hill, No. 1, Coob, subdivision, in Waggoner Colony, drilling at 1760 feet.

Billy Hughes Oil Co., Section 23, Block 16, location.

Royal Flush Oil Company, Section 54, Block 16, Randall, location.

Waggoner Ranch Oil Company, No. 1, Wharton, struck pay sand at 2040 feet, oil going over crown block, waiting on connections and tanks to complete.

Woodburn Oil Corporation, Raesner, Section 43, Block 13, location.

Canble Oil & Gas Co., Tuttle, No. 1, sub-division 182, Waggoner Colony, drilling at 1780 feet.

Lawrence Drilling & Development Company, Robertson, Section 25, Block 16, location.

Magnolia Petroleum Co.—W. R. Piper, No. 33, drilling at 1820 feet; No. 34, drilling at 1420 feet; Francis Summer No. 41, drilling at 1950 feet.

H. & T. C. Co., No. 31, drilling at 1996 feet; No. 40, drilling at 1100 feet; No. 42, drilling at 1870 feet.

Foard County—Wilbarger-Foard Oil Company, Section 13, Block 8, Beazley, No. 1, 1200 feet; No. 2, Section 14, Block 18, material; Emerald Oil & Gas Company, No. Herring & Johnson, drilling 3125 feet.

Coon-Reel Oil Co., No. 1, Haney, spudded 40 feet.

Hardeman County Drilling Report. Quanah-Texas Drilling Association, No. 1, Section 22, Block A, drilling at 1170 feet.

Old Colony Petroleum Co., No. 1, lot 62, Block H, of the W. N. Ry. Co., pulling pipe at 3017 feet to abandon.

Nee-No-She Petroleum Co., No. 1, Section 241, Stewart, setting 10 inch casing at 850 feet.

C. & H. Oil Company, Section 60, Block 16, 800 feet, drilling.

The Great Western Petroleum Co., Hopkins school land, shut down 1010 feet, waiting on underreamer.

Frizzell, et al., No. 1, Norton, drilling at 1700 feet; No. 2, Norton shut down at 1225 feet. No. 3, Porterfield, changing to rotary, 1002 feet.

First-Pitt Oil Co., Acme, ready to spud, drilling water well.

Mid-West Petroleum Co., Wheat No. 1, Section 184, Block K, completed.

Penn-Burk Oil Company, West Vernon No. 1, Hurt, Section 91, Block 14, contract to drill to depth of 3000 feet; No. 1, Gilliam, drilling at 1095 feet; No. 1, Mulkey, 150 feet.

The Agate Company, drilling on Section 207, and another location made.

McReynolds Oil & Gas Company, No. 1, O'Hair, 480 feet, drilling.

Oil Products Company, derrick and tools.

H. C. Walters, No. 1, Gilliam, drilling at 600 feet.

Elmburst Investment Co., Brock, 730 feet.

Billy Greene Oil Co., material; Greesbeck Oil Company, Sparks, overhauling machinery.

Victor Oil & Gas Company, spudded in.

Thalia News.

respondence.—Marvin Phillips son of Mr. and Mrs. M. J. Phillips and Miss Noble Megemini of Margaret were quietly married at Margaret Sunday morning, March 14. After the ceremony they returned to the home of the bride where a nice dinner was spread for them. From there they went to the home of Greek Davis, where a nice supper was awaiting them. Monday they were given a dinner at the home of his brother Millard and wife. They left Wednesday for Petersburg, Texas, where they will make their home. Many years of happy married life is wished by their many friends.

Sue Thompson was shopping in Crowell Tuesday afternoon.

Mrs. Luke Johnson and daughter-in-law, Mrs. Walter Johnson, called on Mrs. Gordon Davis Saturday afternoon.

Grover Nichols and family of Black attended preaching here Sunday and took dinner with Walter Banister and son.

Mr. and Mrs. Greek Davis and Mr. and Mrs. Walter Rector of Margaret attended preaching here Sunday morning.

Dr. R. E. Main motored to Vernon Saturday and returned Sunday morning.

Myrtle Huntley spent Saturday

visited with Gordon Davis and family.

Elmer Key and family took dinner with Loyd Porter and family Sunday.

Bob Abston, Randolph Cenfal, Joe Richter and Ewald Schroeder, Fred Woodruff and Lee Bradford and Misses Alma and Emma Schroeder and Flora Bradford all attended the singing at Rayland Sunday night.

Ike Flemming and sister, Laura and Leonard, and Janice Pool visited Pearl and Lena Ward Sunday afternoon.

Mr. and Mrs. C. Hasseloff and son and daughter of Lockett called by and son and daughter awhile with Otto Schroeder and family while on their way to visit their son Otto, and family of Margaret last Sunday afternoon.

Josie Langley spent Saturday night with Annie Woods.

Mr. and Mrs. Millard Phillips spent Sunday afternoon with Gordon Davis and family.

Mr. Blanchard, who lives on Sam Russel's farm near Crowell is here waiting on Dick Swan, who is sick.

Mr. and Mrs. Carl Davis and children spent from Friday until Sunday with Gordon Davis and family.

Will Allen Colston and daughter, Clara and his sister, Alma Colston of Wellington, visited J. A. Abston and family Sunday and also visited relatives at Rayland while here.

Prof. Owens took sick Monday afternoon while teaching and had to dismiss school and go to his home for medical aid.

Mrs. Cap Adkins visited Mrs. Gordon Davis Friday morning.

Walter Banister and J. G. Thompson motored to Crowell Tuesday.

Mr. and Mrs. Greek Davis and Mr. and Mrs. Walter Rector of Margaret attended preaching here Sunday morning.

Dr. R. E. Main motored to Vernon Saturday and returned Sunday morning.

Myrtle Huntley spent Saturday

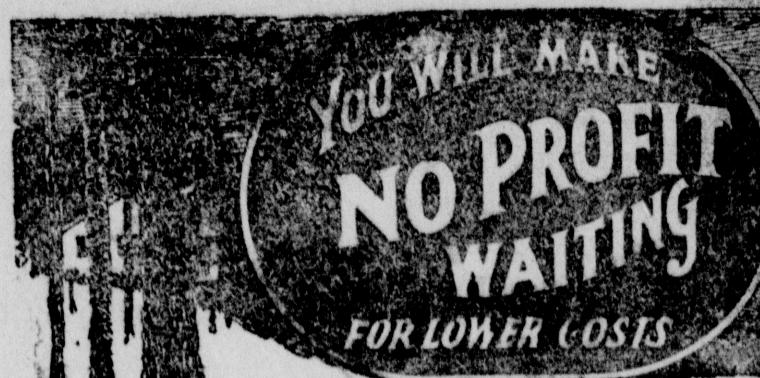

dinner with Greek Davis and family of Margaret Sunday.

Irene Davis of Rayland is spending a few days with her brother, Gordon Davis, and family this week.

Mr. and Mrs. Carroll Lindsey of Ayresville attended church here Saturday night.

Mrs. J. G. Thompson spent Monday with her daughter, Mrs. Walter Banister while Mr. Thompson and son, John, went to Crowell.

Sam Tolle is on the sick list this week.

to make profits, you can't get ahead waiting for lower prices that may never come.

We are fortunate to be able to get the building materials that we need. Waiting for better conditions is stagnation and poor business.

We will help you to the lowest building material prices that are possible today, they may be higher tomorrow. You better start at once.

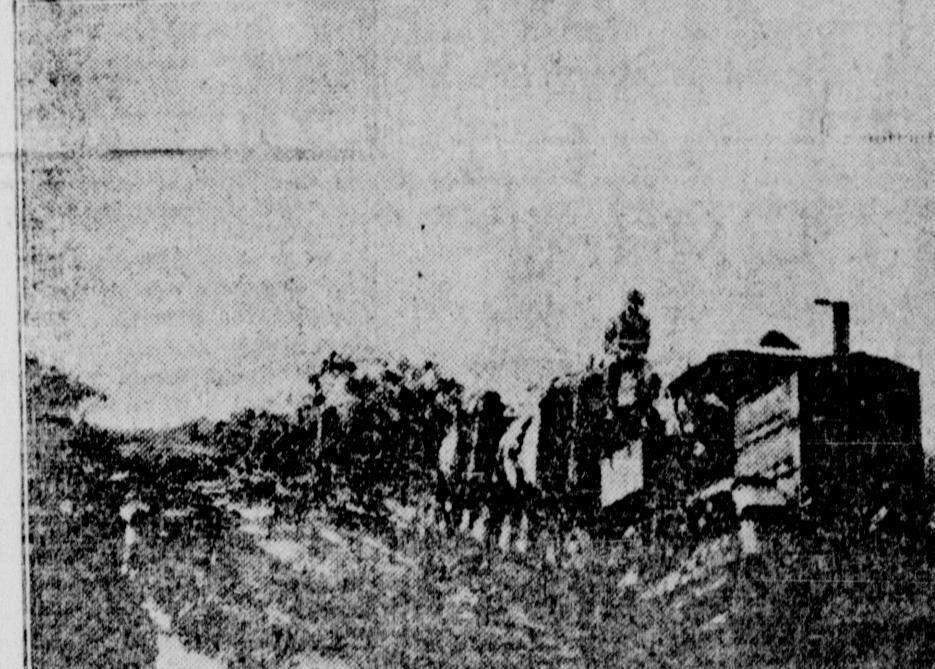

Our Special Tables

For the Ladies

are as well appointed as those in high-class homes. Stop in and sit down at one for luncheon, tea or dinner. You'll find the food as dainty as the table appointments and the service beyond criticism. We fancy, too, that you'll not feel badly, because our prices are very moderate.

For about four months this bank has been urging the farmers hereabouts to read *THE COUNTRY GENTLEMAN*. We have done it because we believe in *THE COUNTRY GENTLEMAN*.

This Great National Farm Weekly offers actual money-making helps to those farmers who read it regularly and follow its advice.

Its subscribers have in the main become the most prosperous farmers in their counties the Nation over.

And that is why we should like to see it in every farm home in our county. We mean it when we say: Read

The COUNTRY GENTLEMAN

In a recent investigation among farmers the question was asked: "What helps you most?" One-third answered: "My farm paper." They were able to put a dollars-and-cents value on the advice they read. *THE COUNTRY GENTLEMAN* is National—broad enough to cover the United States and give a Nation-wide viewpoint; and at the same time it is local enough to treat of methods and practices section by section. Subscribe for a year! It will cost you \$1.00 for 52 big weekly issues—and many a farmer has profited \$100.00 from hints in a single issue. If you say so we'll charge your account \$1.00 and see that your subscription begins at once. We mean it!

WAR RISK BUREAU GETTING DOWN TO BUSINESS BASIS

Director of Soldiers' Insurance Announces That Unanswered Letters Now But a Fraction of Number Formerly on Desks of Clerks Awaiting Replies—Expect to Improve Further.

Announcement is made by Director R. G. Cholmeley-Jones of the bureau of war risk insurance that the insurance division of the bureau is virtually at the end of its period of congestion and consequent dissatisfaction and vexatious delays, resulting from the great volume of work suddenly thrown upon it by the demobilization of the armed forces during the past year.

Former service men whose insurance has lapsed or has been canceled are encouraged to take advantage of the very liberal provisions for reinstatement of war risk insurance by the payment of two monthly premiums with the application and a satisfactory statement of health. They are assured that from now on, receipts for premiums will be sent to them within a few days from the date of the original receipt of the remittance. Instead of the form paragraphs and unsatisfactory form letters which formerly it was necessary to use to answer the flood of mail, they will be replied to with real letters in insurance cases which require detailed and specific answers.

Catch Up on Pending Premiums.

The number of unpaid premiums in the bureau, which last October was approximately \$8,000, has just been reduced to an average of 40,000 or less than one day's work.

Unanswered mail in the insurance division shows a reduction of approximately 60 per cent from the daily balance of five months ago. Probably it will be two or three weeks before it will be possible to answer all the letters as quickly as it is now possible to mail out receipts for premiums, but it is a matter of only a few weeks before the answering of all ordinary inquiries in reference to insurance matters within four days of their receipt in the bureau will be the regular practice.

While some difficulties due to failure of service men to furnish serial numbers and other necessary information always will be inevitable, very serious handicaps in the addressing of the men have just been overcome. Through a special appropriation made by congress, the bureau has been enabled to put its entire list of former service men on addressograph plates. This prevents errors that previously occurred through repeated copying

from the millions of records with typewriters.

Information Easily Obtained.

Former service men desiring to reinstate war risk insurance which has lapsed or been canceled, or to convert their insurance in cases where it is now in force, should apply to any post of the American Legion, the Veterans of Foreign Wars, or other organizations of former service men, army, navy and marine corps recruiting stations, state insurance commissioners, any home service section of the American Red Cross, Salvation Army, Knights of Columbus, Jewish Welfare Board, Y. M. C. A., or to other fraternal or welfare organizations or agencies which are in a position to furnish blanks and necessary information. Or, if they prefer to do so, they should write directly to the Insurance division, Bureau of War Risk Insurance, Washington, D. C., in all cases furnishing the following six points of information for the identification of their cases in the records:

1. Full name (including first, middle, and last name) and complete address.

2. Rank, rating or grade at the time of original application for insurance.

3. Army or navy organization at time of original application for insurance.

4. The number of insurance certificate or government life insurance policy, if known.

5. Army serial number, if in the army.

6. Date of discharge, if discharged. Service men whose insurance has lapsed or has been canceled are reminded, however, that as long as they are without insurance, they are without its protection, and, in their own best interests, should apply for reinstatement of their insurance without delay.

69 Unclaimed Letters.

Postmaster J. V. Townsend advises that there were sixty-nine unclaimed letters in the postoffice. Following is the list:

Auto Supply Co., Mrs. G. C. Bishop, Mrs. Ella Burnett, Mrs. Sarah Butler, J. D. Kunker, J. J. Baldwin, Miss Ida Brown, W. J. Cassidy, W. J. Cassidy, Dewey Churchill, Mrs. Nellie Cox, W. L. Cook, Mrs. Gloria Dightman, Mrs. Mary J. Taylor, C. F. Dodson, Miss Josephine Franklin, Lude Gatewood, W. A. Hise, W. A. Hise, W. Hise, W. L. Hinds, Norwood Hienderman, J. W. Hinds, Mrs. May Hardin, Mrs. Novella Hardin, Mrs. Bellisie Heison, Mrs. Mattie Islander, Mrs. E. J. Jackson, Percy Jones, Miss Tommie Johnson, James T. Love, Mrs. Emma Liles, John Leak, J. W. Lanford, H. W. Moore, Mrs. Fay Murphy, Elzie Mathis, Mrs. Luisa Mars, Miss Tommie Lee Newton, Miss Josie Owens, Isabel Owens, R. B. Pond, Miss Rosie Porter, Geo. Perkins, Geo. Perkins, J. W. Patterson, Tas Rodgers, Tas Rodgers, Mrs. Rogers, G. E. Rogers, Tas Rodgers, Mrs. Leon Rogers, Mrs. O. C. Reed, Miss Nannie Reed, Georgia Taylor, Ege Tucker, Mrs. Ollie Turley, Sidney Tucker, H. C. Tebota, Texas Oil Ledger, A. M. Thompson, Roosevelt Tiller, C. H. Thomas, Miss Loula Womack, Bliss Williams, Barney Williams, R. D. West, Mrs. Estella White, Miss Hattie White.

MAN WHO PUT ON SUNSHINE HILL HERE TO GET IN ON OIL.

E. M. Foster, formerly of Minneapolis, Minn., and more recently of Wichita Falls, is in Vernon. Mr. Foster put on Sunshine Hill, famous about two years ago in Wichita County, and has promoted any number of other oil development plans.

Mr. Foster has about 4,000 acres leased not far from the Sigler well, and predicts that big things are just beginning around Vernon.

J. A. Robinson left Wednesday for Dallas, where he went to attend a meeting of Brick dealers in Texas.

Mrs. S. W. Bailey returned Thursday from Dallas, where she spent the last week.

Mrs. J. F. Williams left Wednesday for Wichita Falls, where she will visit several days.

L. M. Lovelace of Ranger, Texas, is back in Vernon and expects to make his home here.

Mrs. Lee Bivins of Amarillo and Miss Jennie Tolbert of Hobart, Okla., are visiting Mr. and Mrs. W. B. Gilbert and relatives here.

E. L. Smith came yesterday from Wichita Falls, where he has been in the oil business for some time. He was formerly secretary of the local Retail Merchants Association.

E. C. Christian of Dallas has taken charge of the accounting department of the Kell Milling Company. He was formerly chief auditor with the firm of Hutchison and Smith, accountants, of Dallas. Mrs. Christian expects to move to Vernon in a short time.

Call Howard Heath, phone 502 or 496 for truck hauling of all kinds. 21-Ste

The Smith Auto Sales Company reports the sale of a Lexington touring car to Everett Bell of Crowell.

L. E. Graves of the Belknap Hardware of Louisville, Tenn., is now making his headquarters in Vernon.

A FISH STORY

Fisherman: "When I was out the other day I hooked the finest bass I ever saw. I had to play him for thirty minutes and just as I was lifting him into the boat he got away. It nearly broke my heart, he was such a beauty—weighed just six and a quarter pounds."

"How do you know what he weighed," spoke up a friend, "you say he got away?"

Fisherman: "Why, the SCALES on his back, of course."

Now if we were all like this bass we wouldn't need the stock of scales we are now carrying. We have a scale for every need, and a good scale is often needed, and always a good investment.

Swartwood & Company

DECREASE IN OIL PRODUCTION FROM EASTERN SECTION

Statistics Show Pennsylvania Initial Capacity Flow of Wells Is Greatly Reduced—Louisiana Output of Petroleum Trebles in Last Two Years—Texas Is Still in the Game Strong.

North Louisiana's 1919 oil well completions held the high mark for average initial daily production to each well in the eleven oil producing areas East of the Rocky mountains, according to reliable available statistics made public today. The North Louisiana fields averaged 887 barrels initial daily production to each completion while the North Texas completions averaged 595 barrels, the Gulf Coast field 432 1/2 barrels and the Pennsylvania field only 10 1/2. These figures give some idea of the extent of the decrease in production in the once prolific field of the east and of the increase in southern output.

The figures show that the Gulf coast region developed the greatest number of dry holes in comparison with the number of wells drilled, a total of 561 of the 1,236 completions in this district or 45 per cent being dry. Out of a total of 704 completions in Louisiana there were 123 dry holes or seventeen per cent of the total wells drilled. Kentucky-Tennessee completions numbered 3,716 completions of which 421 or eleven per cent, were dry wells.

The Lima-Louisianian field, often called a close second to North Louisiana so far as promise is concerned, showed a total of 159 dry holes out of 834 completions, or 19 per cent of the total.

Louisiana's oil production trebled in the last two years. Production for January, 1918 totaled 781,000 barrels, and reached 2,567,000 barrels in January, 1920. The daily average jumped from 25,194 to 82,806 barrels.

Homer field in North Louisiana now leads the United States in oil production having passed Burkhardt, Texas, its nearest rival several weeks ago with pipe line production of nearly 90,000 barrels daily. Late reports also indicate the return of the once prolific Caddo field of Louisiana, which has been settled production for more than ten years. Recently flowing wells have been brought in in the extreme southern end of the pool where it was believed that only pumpers could be developed.

Latest statistics place the total number of producing wells in the United States at 225,000 with an output of over a million barrels of oil daily.

Remember.

J. R. Jones' real estate office phone No. 617. His office is located in the Ferguson building on the west side of North Main street, fronting east, just one door north of Hahn's dry goods store. If you want to buy, sell or rent real estate, you will find it to your interest to phone or call on him. 55-16

W. I. Vaughn of San Antonio, who formerly resided 4 miles southwest of Vernon, is in the city looking over the oil situation.

PLAN TAG DAY FOR BETTERING SCHOOL

STATE SUPERINTENDENT OF EDUCATION RESORTS TO NEW "DRIVE" PROGRAM.

A new "drive" campaign has the endorsement of the state superintendent of education according to the following communication from Miss Annie Webb Blanton:

To The Record: An organization for a state-wide better schools campaign is now in progress. To provide funds for a great campaign for education, to be carried on next October in every county of Texas, a better schools tag day will be held in every part of the state on the first day of May. Supplies and circulars will be distributed through county chairmen to rural and town tag-day chairmen. One-half of the amount raised in each county will remain in the county as a county campaign fund; the remaining half will be assigned to the state campaign fund.

The request is to be made of those who will carry on this work, to render to their state this service, with the same patriotic motives that prompted those who in the army drafts responded to the Nation's call.

Those who will make the small contribution asked for the May day tax are expected to respond as readily as they did to the nation's appeal in the war drives which saved democracy. This campaign will be a great movement for the preservation in our state of the "guardian—genius of democracy"—Education.

ANNIE WEBB BLANTON, Chairman, State Campaign Committee.

HEALTH CENTER FOR CHILDREN IS URGED

STATE HEALTH OFFICER CALLS ATTENTION TO WHAT HE CONSIDERS A NEED.

In order to prevent unnecessary deaths among the children of Texas and to raise the health standard so that the many who escape actual death will not drag through a sickly childhood and an inefficient maturity, Dr. C. W. Goddard, state health officer, would establish a child health center in every county in Texas.

As a step toward attaining this goal Dr. Goddard is mailing out a bulletin outlining a practical working program to all health officers in the State, branches of the Mothers, Congress and Parent-Teacher Association, Texas Federation of Women's Clubs, Red Cross Chapters, etc. This bulletin, which was compiled by the bureau of child hygiene of the state health department, explains how to organize a child health center and states its purposes.

"The essentials of a child health center are: A good doctor, a good health nurse, who understands children, a mother, a child and a room in which to meet," declared Dr. Goddard.

Oil lease of 4000 acres in solid body, part in Wichita and part in Wilbarger county, near Guyer-Trisler well. Also 5000 acres solid body, round timber ranch adjoining Neal Hamilton well. 3500 acres solid body southwest of Vernon; also many smaller leases of 40 acres up to any amount. See me, J. E. Lutz.

HART SCHAFFNER & MARX MAKES.

Suits.

Quality shares with style in these young men's clothes. As young men's specialists we are keen for style; we say a lot about it's importance, but we are never overlooking quality. We play it strong. We know that style built on anything but good fabrics and fine tailoring don't last long. Our style is the permanent kind—the kind

Mallory Hats

War prices have come and gone many times in the hundred years since Mallory began making hats.

But neither war prices nor anything else has ever affected the quality of Mallory hats.

That is why this spring, particularly a man who wants the best hat values possible for his money, should buy Mallory.

Manhattan Shirts are constructed. Unlike other silk shirts, these are exclusively the best, because while the materials are the finest loomed, the tailoring and fit are in strict accord with the high standards which have earned for Manhattan Shirts the reputation of "known as the best—the best known."

Manhattan Shirts.

Second to none.

We particularly emphasize the supreme quality of the silk from which Manhattan Shirts

By Way of Introducing MANSCO Summer Underwear.

TRYING TO PROVIDE ROOMS FOR VISITORS

CHAMBER OF COMMERCE WILL ACT AS CLEARING HOUSE DURING RUSH.

The Chamber of Commerce will act as a clearing house for rooms during the oil rush. Secretary C. M. Murray says an effort will be made to provide some place for every one to sleep, although it may be necessary to improvise sleeping quarters in halls and public buildings.

Nothing has been done toward placing cots in the court room, or City Hall, but this may be done. The plan was tried out in Wichita Falls for some time.

Secretary Murray asks persons who have a spare room to telephone the Chamber of Commerce at No. 96. The request is made, further, that every family in town that can possibly spare a room during the rush shall do so.

WILL REPRESENT STATE AT GOOD ROADS CONFERENCE

W. D. Berry of Vernon has been appointed by Governor Hobby as representative of Texas at the United States Good Roads Association in Little Rock, Ark. The Association meets April 12-17.

Judge Berry's commission was received today. It reads: "Appreciating the high standing and worth, and reposing special confidence in the integrity of W. D. Berry, Vernon, Texas, I, W. P. Hobby, Governor of Texas, hereby appoint him to represent the State at the United States Good Roads Association, Little Rock, Arkansas, April 12-17. Signed: W. P. Hobby, Governor of Texas."

M. L. BURCH OF ODELL ANNOUNCES FOR WEIGHER

M. L. Burch of Odell is a candidate for public weigher in precinct No. 10. Mr. Burch believes that he is competent for the place, and feels that this ought to be given primary consideration.

Mr. Burch makes no pretense of being a politician, and takes the position that the position which he asks of the voters of his community is not a political one. If elected he expects to give the duties of the office the careful attention which its importance merits.

OKLAUNION HIGH SCHOOL GIRLS' TEAMS WINNERS

The girl teams representing the Oklaunion High School in basketball have won the south side championship and have high hopes of winning the county championship, according to W. N. Gourley of the Oklaunion school, who was in the city last night.

The junior girls of the Oklaunion school defeated the Central Ward school team, Vernon, by a score of 20 to 10 in the game played here Wednesday.

The senior girls defeated Harrold's team last Saturday, the score being 11 to 14. They will play Tolbert High school for the county championship tomorrow.

Former Route 4 People Are Wed.

M. L. Roberts and Miss Gladys Thompson were married at Norman, Oklahoma, March 11, according to advice just received here. Mr. Roberts is the son of Mr. and Mrs. J. A. Roberts formerly of Route 4, Vernon, while his bride is the daughter of Mr. and Mrs. J. A. Thompson, also formerly of Route 4, Vernon. They will live at Bearden, Oklahoma.

Turned Back to Storm.

Mr. and Mrs. D. T. Stone started for their home near Texline yesterday morning, after a visit of several days with Mrs. Stone's parents, Mr. and Mrs. T. J. Griffiths, but the storm of wind and rain drove them back, and they will try again tomorrow.

Realism on the Stage.

Escort—You seem to be very much affected by the play.

The Lady—Yes. It was that home-like scene that upset me. When the woman sat down on the flour barrel and began to peel onions it was so realistic I was moved to tears.

WICHITA RECORD-NEWS MAN MAKES VISIT

Porter Oakes, President of the Plymouth Petroleum Company, a five million dollar corporation which has several hundred acres in Wilbarger county, was in Vernon Friday.

Mr. Oakes is associated with the McAdoo interests, and is vice president of the Record News, at Wichita Falls.

Girls Making Good on Venture.

The girls of the Odell Domestic Economy Club who have been serving sandwiches at the Odell High School in order to raise money to equip a club room and laboratory-kitchen have been meeting with great success in the sale of their wares, according to Misses Ohmie Wilcox and Edith Lacy, home demonstrators, who visited the Odell girls this week. They gave a demonstration to the girls on different methods of cooking eggs.

PACKARD

"ASK THE MAN WHO OWNS ONE."

You will often hear people say, with an air of resignation, how much they would rather ride in a Packard, if they could only afford it.

Putting the Packard owner in a class apart, with special comforts and privileges—assuming that he pays more for his motoring than they do.

A great many people would be less resigned to their own inconveniences of travel, if they knew how little the Packard owner pays for the comfort they speak of. The gasoline mileage of the Packard is from 10 to 14 miles, according to the road conditions. The oil mileage, 1,000 to the gallon. Tires, properly cared for, 10,000 to 16,000 miles.

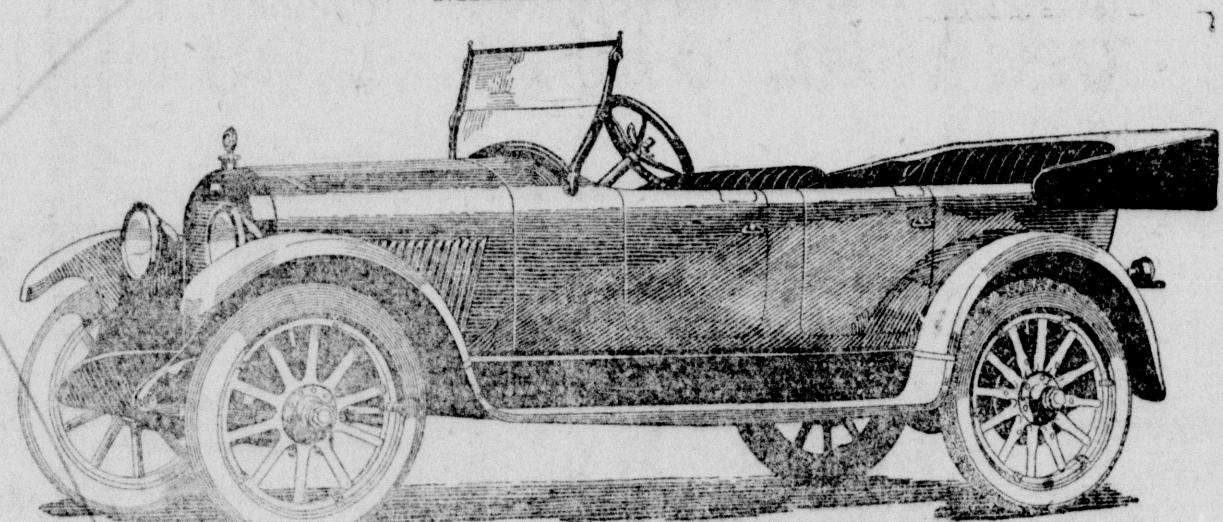

For twenty years the Packard Company has been studying motor cars from the standpoint of Transportation Experts. Time after time it has proved that trying to save on the initial investment costs a man more in the long run than buying a Packard.

Transportation facts are not a matter of compromise, but absolute—as the Packard experts can show any man who really wants to know.

Be convinced, see and ride in the Packard we have on our show room floor.

LEXINGTON

"MINUTE MAN SIX."

For those who want the individuality of advanced design, Lexington introduces this highly specialized model. Although it is not a "Race Car," the way it passes others without effort or fuss is an undeniable service of satisfaction. Basic improvements account for its remarkable power on the present-day low-grade fuel than was possible with the former high-test gas.

Visit our salesroom and inspect this car.

ELKS ARE SEEKING
REGULAR QUARTERSM'ADOO, OAKES AND
SHAFFER HERE NOWNEWLY ORGANIZED FRATERNAL
ORDER PLANNING FOR PER-
MANENT HOME.BIG OIL INVESTMENT BROKER-
AGE FIRM LOCATES IN
CITY TODAY.

The first regular meeting of the Elks Lodge was held Tuesday night at the Odd Fellows Hall. The lodge was instituted here last week at which time several of the business men of Vernon who were to have been charter members were out of the city. These men were taken into the order at last night's meeting. They were: F. L. Massie, G. C. Morris, L. E. Piper, W. O. Powell, Hubbard Colley, Blair Williams, Bruce Gibson, R. H. Coffey. Prominent members of the Quanah lodge helped in the work of the evening.

During the past week the individual members have been carrying on a campaign for members and according to Roy Russell, exalted ruler, are meeting with splendid success the applications of over thirty members having already been received. These candidates will be initiated at the next meeting. Mr. Russell believes that the club will have a membership of 250 members within the next six months. A committee comprising E. L. McCarter, F. L. Massie and Harry Mason was appointed to make plans for a location of a temporary meeting place and arrange for a permanent home and to submit them to the trustees. J. A. Dixon, Dr. A. P. Howard and C. R. Staley.

There were about fifty Elks present at last night's meeting and after the session a supper was given the guests at the Liberty Cafe.

WILL COMPLETE CITY SCHOOL
CENSUS DURING NEXT WEEK

It is the plan of Superintendent B. F. Sisk to complete the school census during this month. He asks that all parents who have children who have not been enrolled for the census purpose during the month of March, please call him at 'phone 321 or see him after 6 o'clock at the Vernon Hotel.

Boys and girls between the ages of 7 and 18 should be enrolled. This is important, as each child enrolled means more money for school purposes.

O. A. McCURDY ANNOUNCES HIS
CANDIDACY FOR COUNTY JUDGE

O. A. McCurdy authorizes announcement of his candidacy for county judge, subject to the action of the Democratic primaries.

Mr. McCurdy was born and reared in Vernon. He spent three years in the law school of Washington and Lee University, graduating there in 1917. After completing his law course, Mr. McCurdy practiced his profession until he entered the service as a member of the marine corps in 1918. He spent about 16 months as a marine.

Support of his candidacy on the basis of merit is what Mr. McCurdy requests.

WHAT THE WOMEN OF VERNON ARE ACCOMPLISHING

By Mrs. Bertha Ross

Editor's Note.—The following paper was read at a recent meeting of the Culture Club of this city. Mrs. Ross has consented to its publication, at the request of friends who heard it read at the club session.)

What a subject for our consideration! Better ask us what they have not accomplished along the lines of civic improvement, house keeping, child rearing and training, food sanitation, social life, prohibition and all kindred subjects that tend toward the uplift of both town and county and their citizenship.

The club women of Vernon have caused two blades of grass to grow where one hog weed or grass burr grew before. Scores of trees shade our beautiful streets where not even a lone mesquite welcomed the passerby.

They have assailed mud holes and other unsightly places, not with scrapers and shovels but with smiles for the city fathers and perseverance along with the smiles and, lo, they have vanished away like the snow bank. Where once a sign in front of the location of the B. & W. Drug Company warned the passerby of the dangerous depth of the mud hole, behold a neat honest-to-goodness paved street.

In fact, from blocks above where the street car track stretched its ugly rails in the dust and mud, the granite paving extends far down to the station. Lighted with myriad soft electric globes, we point with pride to our "White Way."

On the side streets will be found heaps of gravel waiting to be fashioned into other thoroughfares of our city. True, this took money and labor of the sterner sex; but the women (God Bless Them) furnished the urge and the one-pointed idea—that we must have better streets and a cleaner town.

We are not sighing for new worlds to conquer for they have already been discovered and await our attack.

The year 1898 ushered in the dawn of a new day for the club women of Vernon, though few were aware of the fact when Mrs. G. A. Brown and

her handful of young women formed the Yamparika Club. In after years the beautiful Indian name was changed to Bay View Reading Circle. The change was not euphonious to say the least but Yamparika, translated into our prosy English, is "sweet potato," we suppose "a rose by any name would smell as sweet."

The club, though of a literary nature, embodied in it the germ of home science. So in 1900, Mrs. T. M. Kell divorced the idea of home making from the mother club and the Home Science Club was founded. "Home making hearts are happiest," 'tis said, and down through the years have come to us younger clubs, the echoes of the achievements and triumphs of this really wonderful band of women.

In 1903-1904, during the administration of Mrs. C. J. Farrell the study of civics was taken up, and we see on every side, the handiwork of these women.

Trees, as well as flowers, grow for those that love them. So with fear and trembling, coupled with love and very little water (hauled from Condon Springs) these trees were planted.

Now on each side of Main street down to the depot and on some of the less prominent streets, from the first warm days in April when the perfume of their flowers cause hope to spring once more in the breasts, of those who inhale these harbingers of spring; through the long hot days of summer, when we seek protection beneath their friendly branches, from the too ardent sun; down through the first frosts when the leaves lie red and golden in autumn; until at last our great north wind sweeps bare their boughs, they are an inspiration, telling of the faith and courage of woman.

Allingham Park once the home of the founder of clubdom in Vernon, was purchased by this club, and given to the city. Some time, it is planned by

the various clubs of the city, to build a joint club home here. Not as a monument to Mrs. Brown and Mrs. Kell, for they need no monument—they live in the hearts of their followers; but as a place of meeting and another jewel in the crown of club life.

Club women invaded the school some few years ago in the form of the Mothers Club, now the Parent-Teachers Association. Taking up this work has enabled them to make more out of the school and child than could have been possible under the old regime. Thanks to the women in this work, better sanitation, school lunches, lighting system, dental inspection, in fact slowly everything is being done to make better men and women of tomorrow.

Slowly? Yes, for reforms take time, you know, to break down opposition and uproot prejudice of men and women, who received their training at the little log school house or possibly a shade better house. "What was good enough for me ought to be good enough for John and Sallie," they argue. They haven't caught the vision yet, but John and Sallie have, and their fairy god mother is the club women of Vernon.

The W. C. T. U., though not considered a club proper, is a group of women banded together for the betterment of humanity. In 1915 they placed on the public square a drinking fountain for man, bird and beast. The graceful figure on the pedestal above the cooling place looks down with a benediction on those who seek to quench their thirst. If they had done nothing more than this for our fair town; men and women would have risen up and called them blessed.

But years ago this noble band of women, headed by their present president, Mrs. Rena M. Watts, and in the face of ridicule, taking as their motto, "For God and Home and Native Land," resolved that Vernon and this county must banish from their midst, King Alcohol, and that his slaves should be un-chained from his chariot wheels and made free men again. Through the three great principles of power—prayer, faith and work—this was accomplished. Only those who saw this done and the methods used, know what faith, prayer and work it took to rid the town of this Attila-like scourge.

They have broadened their motto to take in every land since the nationwide drought and include in their work, social purity at home and abroad.

There are many clubs in Vernon, some organized for instruction, some

WELCOME TO VERNON

The bringing in of the Sigler well southwest of Vernon undoubtedly puts Vernon on the map as an oil town. This well has not been tested out but all indications point to a production of several hundred barrels.

The influx of visitors has taxed the housing facilities of the City; every effort is being made to house the visitors already here and those arriving daily. The co-operation of all citizens is requested in housing our visitors until suitable accommodations can be secured.

Vernon Chamber of Commerce

for recreation; but when Germany dared to call us a nation of money grubbers, our men soft and effeminate, and our women dolls, when a state of war was declared to exist between Germany and America—then women laid aside those things that in the face of graver issues seemed very light. Red Cross workers came swiftly from clubdom and helped swell its ranks and raise the money which contributed to the enjoyment, staunched the wounds, and cared for the families at home of the men who went over the sea and over the top over there.

The sale of thrift stamps and Liberty Bonds took the place of rummage sales and tag days for civic improvement. White hands that played "42" and "500" made bandages, packed boxes and knit socks and sweaters of the army and navy.

Dainty refreshments were eliminated or so Hooverized that they looked like sawdust and tasted worse, masquerading under the name of eatables. We were not a nation in sack cloth and ashes as we refused to buy new dresses but an army of women imbued with the idea that the sooner we made these sacrifices, the sooner Victory would perch on our banner. And lo! the 11th hour of the 11th day of the 11th month 1918 we were freed to return to our duties.

And here we are. We found to our dismay however, that in the stupendous work of helping win the war we had neglected our home town. Like mothers who go off to take care of sick relatives we returned to find the youngsters with a dirty face. In fact the whole town needed a thorough cleaning.

In the spring of 1919, with Mrs. W. H. Huggins as president, the city and county Federation of Clubs was formed. The time had arrived and the different organizations had the necessary strength we judged, to join hands in a common cause, working for the civic improvement and social uplift of Vernon.

Each club now has the same chance to show whether they have arrived at the point where they can forget differences and assist in constructive work. Be it weed cutting, street cleaning, food sanitation or what not. Concerted action will make this a go.

Shortly before the war cloud settled down over our fair land; the Culture club was formed. Mrs. J. A. Lucky, Mrs. J. N. Johnson, Mrs. G. W. Backus and Mrs. J. H. E. Young have the honor of being the founders of this club.

Guest—Your governess seems so demure.

Hostess—Yes, poor thing! Her father was in the last fury in Wall street, and I took her in.

Guest—Poor girl! How unfortunate some people are!

after the older grown clubs.

A literary and musical club combined, we browse among the old authors and read selections from the new, discuss the topics of the day from aero planes to submarines.

We have argued over the H. C. of L. as all great minds are doing; going around in a circle and arriving at nothing as they have done. We have honestly tried to flounder through the peace treaty and the league of nations with almost as much wisdom as a Republican congress but finished the work with at least greater dispatch than they have done.

We have spent delightful afternoons learning of the great composers and through our musical talent our ears have been opened to the symphonies and harmonies of Handel, Mendelssohn, Grieg, Lange and others.

Yet with all our interest in literature and music, our luncheons attest to the fact that we are home lovers. And when the call comes for work outside our club door we are ready and willing to respond. The door opens and we step out—for service.

Thus we try to live the well rounded life. Believing this to be the motto of every earnest thinking club woman in Vernon and Wilbarger county.

I would be pure, for there are those who trust me; I would be true, for there are those who care; I would be strong, for there is much to suffer; I would be brave, for there is much to dare; I would be friend of all—the friendless; I would be giving, and forget the gift; I would be humble for I know my weakness; I would look up—and laugh—and love—and lift.

NOTICE.

This is to notify my customers and friends that I have moved my flock of chickens to a farm seven miles west of town. I have R. I. Red eggs at \$3.00 per setting, and White Leghorn eggs at \$2.50. Also a few choice Red cock with my father or come out and see me. Phone 500. CHAS. BERRY.

The Moral Risk

When the time comes to seek credit, a bank will want to know what you ARE as well as what you HAVE.

That's where the moral hazard comes in. And you can't establish credit over night. Rather, it is a matter of becoming known at your bank, of establishing confidence by the way in which you have kept your account, regardless of the amount you have to your credit.

Get acquainted—that's the first thing. Then develop that acquaintance into friendship. It will stand you in splendid stead when the time comes. Remembering also, that this bank offers you a complete banking service.

The Waggoner National Bank

A "WILD CAT" OIL WELL

Did you ever stop and think what an oil well in wildcat territory means to an investor? Simply this: It means a return on your investment of several fold, as an example: The Burk-Waggoner Company—\$100 invested brought \$3000.00; Kemp-Munger-Allen, \$100 invested brought \$3000.00; Fowler Farm, \$100 invested brought \$15000.00. These companies were at one time rank Wild Cats.

We are now offering you a chance to come in on our 500-acre WILD CAT located in Wichita County only a few miles south of proven production. We are capitalized at only \$75,000. Our geologist's report is very fine. The well will be drilling soon and will continue to a depth of 2000 feet. If you are looking for a fair chance for your money, we would be glad to have you invest with us. Par value of shares \$100.

SAYS NO TEST IS REAL UNLESS PUT DOWN 4,000 FEET

**A. P. Howard Urges Necessity
of Thorough Investigation of
All Practical Strata Under-
neath Wilbarger County—Dis-
cusses Geological Grounds for
Belief in Deep-Lying Sands.**

A. P. Howard, one of the original organizers of the Burk-Waggoner Oil Company, and at present a stockholder in the drilling and development company of that name, believes that the tests of this county for oil have been inadequate where they have gone to a depth of less than 4,000 feet without striking oil.

"In the infancy of the present development in the south part of the county," Dr. Howard said last night in a statement for publication, "It has been proved that there exists a shallow sand which is the same shallow sand that we find at Iowa Park, Electra and Wichita Falls. It seems to be very productive, as is proved by the amount of drilling for oil now going on.

"Other developments in the county seem to be on a different anticlinal structure, especially the structure which extends up from the Ranger field through Jack county, Archer county, Wichita county and the southeastern part of Wilbarger county, from which section it appears to go northwest through the forks of the rivers, dipping under the river and being swallowed up in the mountains to the northwest.

Structure Has Freakish Undulations.

"This structure seems to be freakish as to its undulation. I mean that it appears to come nearer to the surface in the Electra field than at either end of the structure. So, with the great number of tests going down at present with cable rigs, none should be called a real test unless it goes deep enough to reach oil of the great Mississippi line.

"The Mississippi line has never been drilled through by any driller in

this section of the country, according to the consensus of opinion of the oldest and most experienced drillers throughout this part of Texas.

Tells Why Drill Should Go Deep.

"My reasons for my argument in favor of deep drilling in Wilbarger county are these: At the southwest portion of this anticline in the Ranger district oil is found at from 3,400 to around 4,000 feet. And the sands there frequently dip from 50 to 60 feet to the mile. Suppose that the Ranger country had been drilled with a number of so-called tests to a depth of 2,000 to 3,000 feet. Necessarily the country would have been condemned for at least a generation, and no have been 'guilty.'

"The same condition more than likely exists in parts of this country. Therefore I advocate, advise, and am fighting for, and expect to remain on the Hindenburg Line for real tests in Wilbarger county. This means one of three things:

1. Find oil; or
2. Go to the Mississippi line; or
3. Go 4,500 feet deep.

"Deeper than that would be prohibitive from the standpoint of economical exploration."

MRS. JOHN FELLOWS BURIED.

Daughter of T. B. Bourland Dies at Wellington, and Body Is Brought to Vernon for Interment.

Mrs. John Fellows, formerly Miss Minnie Bourland, died Wednesday, March 24, in Wellington. The body was brought to Vernon yesterday for burial, the funeral being announced for 4 p. m., today.

Mrs. Fellows was the daughter of T. B. Bourland east of Vernon, and her death leaves a husband and three children.

FEW WANT CHEAPER CUTS.

Local Butchers Sell All Steak at One Price But Brisket Roast Is Less Expensive.

There is little demand for the cheaper cuts of meat, according to local butchers. If there were, it might not be cheaper. About the only difference in the various cuts of meat, so far as Vernon is concerned, is that the brisket or "plate" roasts are 25c a pound, while other roasts are 30c a pound. Steak is 35c for all cuts.

Local butchers do not anticipate any change in the price of meat soon.

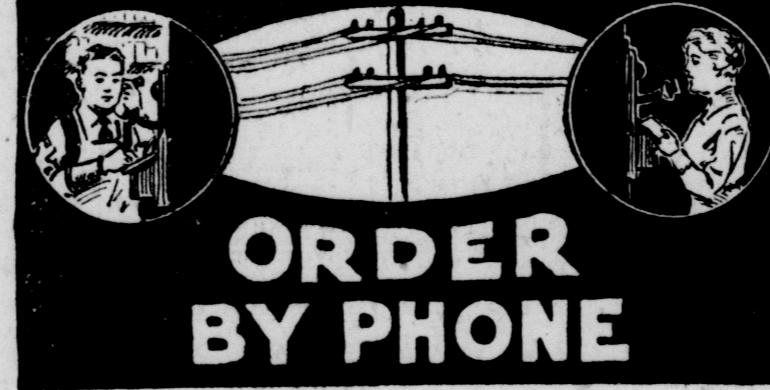

Doke A. Connell Here.

Doke A. Connell of Wichita Falls was in Vernon Friday looking over recent developments. Mr. Connell is vice president of the South K M A Oil Company, which has considerable holdings in the county, and has other large interests in Wichita Falls and the Burk Burnett oil fields.

WHEAT & SON

Vernon, Texas

UNIVERSITY STAFF AIDS OIL INDUSTRY

FACULTY MEN PROMINENT IN PROFESSIONAL GEOLOGICAL CIRCLES.

The important position which the University of Texas occupies in the development of the petroleum resources of this state is shown by the large number of members of the faculty of the school of geology and the bureau of economic geology and technology of that institution who attended the recent annual convention of the American Association of petroleum geologists at Dallas. These faculty members consisted of Dr. F. W. Simmonds, Dr. F. L. Whitney, Dr. H. P. Bybee, Miss H. T. Knicker, Arthur Deen, L. T. Barrow, Joe Dawson, Gaston Parrish, and Dr. E. H. Sellards, besides several others from the Bureau of Economic Geology and Technology. A paper written by Dr. J. A. Udden, director of the bureau, on "Suggestions of a New Method of Making Underground Observations" was read at the meeting by Dr. Sellards.

Another organization, the Southwestern Geological Society, met in Dallas at the same time. At this meeting Dr. R. T. Hill, formerly of the school of geology of the University of Texas was elected president. Dr. H. P. Bybee was elected a member of the executive board at the same meeting. The society broke its rule of taking in only men, and elected Miss H. Knicker and Miss M. Masterson to membership. Miss Knicker is at present a tutor in the school of geology of the University of Texas, and Miss Masterson was formerly of the same school.

Protect Your Stock
by feeding them good, clean, alfalfa hay. I have 2500 bales which I am now selling at \$1 per bale. Better get your supply while you can get the old hay.

PLAN BEGINNING 10 WELLS ON BURTON LEASE IMMEDIATELY

W. G. Burton and A. G. Carter of Fort Worth Will Develop 75,000-Acre Tract Extending South Into Baylor County—Say Oil Fraternity Expect Sigler Well to Be Big One.

A. G. Carter, vice president and general manager of the Fort Worth Star-Telegram, and W. G. Burton, capitalists of Fort Worth, are in Vernon today, looking after their oil leases south of town. The Burton lease includes about 75,000 acres, extending from near Vernon into Baylor county, and is situated on three sides of the Sigler well.

The Fort Worth men propose to put down ten wells on their lease, beginning just as soon as material can be put on the ground. Some of it has already been started. These wells will not be on any one part of the tract, according to Messrs. Carter and Burton, but will extend all the way down into Baylor county, their purpose being to give the tract a thorough test.

It is Mr. Burton's opinion that the Sigler well will be a big one. He says many of the oil men are figuring that it will produce around 3,000 barrels a day. Mr. Carter was in the office of the Sinclair Company yesterday, when telephone report came in from their scout. These people figure on at least 1,000 barrels production.

"Vernon has the best opportunity of any town I have seen to make a city," Mr. Carter said. "You have paved streets and good water. Then you are closer to the field than any of the other towns. It ought to mean a great deal for Vernon."

Mr. and Mrs. J. N. Roberts of Crowley were in the city today. They came over in their car, and stopped by to see the Sigler well.

Mr. and Mrs. T. N. Bell of Crowley were in town today to look into "oil" and visit Vernon friends for a few hours.

RAILROAD VALUATIONS ARE PLACED AT TWENTY BILLION

NEW YORK DEALERS EXPECT LOWER PRICES ON SHOES

Washington, March 26.—Railroad executives and employees differed widely before the Interstate Commerce Commission today as to the methods to be employed in determining the valuation of the roads upon which an annual net return of 5 1/2 per cent is guaranteed for the next two years by the transportation act.

Congress has made it imperative that an immediate valuation of the roads be made, A. P. Thom, general counsel for the Association of Railway Executives, told the commission. Property investment accounts and material and supply accounts, he declared to be the minimum conservative figures now susceptible to use. Data being gathered by the commission under the Federal valuation act is incomplete, he said, and should not be considered in the present problem.

Estimating at \$20,000,000,000 the total value of the properties, Mr. Thom declared that overstatements in the railroads' account filed with the commission would be more than offset by the rise in values in the past two years. He said the public was accustomed to use these accounts in making their investments and any reduction in them would upset the investment values.

NAVY EQUAL TO BRITISH BY 1924 IS PLAN OF LEADERS

A navy equal to that of Great Britain by 1924 is the plan of the supporters of the naval appropriation bill in Congress. Eighteen capital ships are now under construction.

"In the next four years," Chairman Butler of the Naval Committee told the House this week, "the United States will put out the most formidable armada the world has ever seen produced in a similar period.

In 1924, he continued, Great Britain will have sixty battleships, the United States forty-seven, France twenty-six, Japan fifteen, and Italy thirteen. While England will have more ships, he added, those of the United States will be about equal in power.

Representative Kitchen of North Carolina, former Democratic leader, opposed big ship construction, saying that England, Russia and France were not building "sea monsters."

Mr. and Mrs. Perry Griffith were in Wichita Falls Monday of this week.

E. L. Smith of Wichita Falls was among the Vernon visitors of Thursday.

Prices on standard shoes will be reduced during the spring and summer, John J. Slater, president of the Retail Shoe Dealers' Association of New York City, announced Monday to Arthur Williams, Federal Food Administrator.

Retailers at a recent meeting decided to be content with a smaller margin of profit, Mr. Slater said. Reductions, however, will not apply to "all kinds of fancy and ultra-fashionable footwear."

The action of the retail shoe dealers, Mr. Williams said, probably pressures the beginning of a general narrowing of profit margins in other wearing apparel.

Mrs. Rattleby—Doctor, why does your profession take the patient's temperature instead of looking at the tongue?

Diplomatic Doctor—In the case of a woman taking the temperature is preferable, as it is necessary for the patient to be quiet.
